"Shoot Em Down"

Visit "[Shoot Em Down](#)" on MotoLyrics.com

You have come to the right place, if you're looking for
Trouble
Step right up and get down on the double
You better watch your back now
You better watch your neck
One, two, tree, four, enemy attack
Be quick or be dead, don't loose your head
Didn't you hear I just said

Shoot 'em down

C'mon every body load your guns
Shoot 'em down, shot 'em down, give'em a round
Well, don't be a pussy for ones be a man
Shoot the lot if you can
You are mean, a killing machine
Show those bastards what you mean
Slay your masters or be a slave in chains

You have come to the right place, if you're looking for
Trouble
Step right up and get down on the double
You better watch your back now
You better watch your neck
One, two, tree, four, enemy attack
Be quick or be dead, don't loose your head
Didn't you hear I just said
