Yo, yo, fuck what you think  
Fuck what you think

It's about what you know, so fuck what you think  
Twenty-one and over to drink  
Nineteen and over to fuck  
Sixteen and over to Pat  
A twelve year old kid got bucked

The sweet premium classic lay your ass flat as a  
mattress  
Smack your head off the axis, the rhyme facious  
Silencer on the tech-nine shot got your pillow wet  
All your bitch say was the black silhouette

Of the dark Ninja, Lion King of the jungle, Simba  
Cut the roof to your family tree, timber  
Me and Dr. Strange in the black reign smokin' chimneys  
Fat Cappadonna tape stuck inside my Benzi

The blue coats is comin', the red coats is comin'  
The fed coats is comin', the wet heads is comin'  
I heard to Dirt was up in the Riker's fuckin' a female  
CEO, Wu-Tang keep it on the D-low

Third eye is a trillion million watt gigabyte  
Insight like bright, can't find this on your website  
Everglow superior to your inferior material  
Verbal serial murder, givin' you pussycat's venereal

Injections, lethal injections, ran from house  
Left the dictionary, pictionary, the non-fictionary  
Ruler Zig-Zag-Zig Allah, puzzle like jigsaw  
Struggled for charisma, yo

It's about what you know, so fuck what you think  
Nineteen and over to fuck  
It's twenty-one and over to drink  
Sixteen and over to Pat  
A twelve year old kid got bucked

Aiyyo, rock head niggaz who grab mics for the first

time

Get fronted on majorly once the God slides in  
On the scene, love-love in the place to be  
All-American lyrics, the top choice in this rap market  
from

Now y'all the way to England  
'Cuz my click be jinglin' under Wu-Tang Productions  
That's quick to sell a million, then bounced on tour  
outta state  
Rap fiends was trapped in cells like hot cakes

Faster than the rate of the Earth travel  
Which is one-thousand-thirty-seven and one third miles  
per a hour  
And peace to the God Power for never fallin' for nothin'  
less  
Than a hundred grands and rap with rubberbands  
placed in  
Golden suitcases, slitted across the table  
To walk the dogs in the nine-eight, the nine-eight

Yo, I build with the great minds of Africa  
RZA, Star Trek Voyager, Killah Hillside Strangler  
Captured you in inside thirty-six gas chambers  
North American, Arabian, half-tone dark Indian

9th Prince convinces his enemies to kill themselves  
Like Dr. Kavorkian, travel like razor satellites  
Prepared for battles, devils try to raid the castles  
Got tackled by the rebels, the plate in my head is heavy  
metal

Lyrical chain reaction, deadly instruments, run for  
symantecs  
The international civil war assassins  
Geological, biochemical, camouflaged nuclear  
aropostles  
Sounds posible, 'cuz regardless visual

English grammer, mental examiner  
I shock the world like the death of Princess Diana  
Reverse psychology on technology, accept no  
apologies  
The penalty is to cut off your arms and feet  
Poetry teachers are speechers seepin' through the  
speakers  
My fans will become die hard listeners, plus ear  
bleeders

Fuck what you think

Fuck what you think  
Fuck what you think

It's about what you know, so fuck what you think  
Twenty-one and over to drink  
And nineteen and over to fuck  
Sixteen and over to Pat  
A twelve year old kid got bucked

So fuck what you think, it's about what you know  
Twenty-one and over to drink  
And nineteen and over to fuck  
Sixteen and over to Pat  
A twelve year old kid got bucked

Word up, fuck what you think  
Word up, yo
