Ah, love is love honey, yeah
Digi, Digi, bong, bong, bangin? you long
Whop, pop, who pop, then bang bang boom
Shabobalee, shabizzy

Good night, here's your kiss
Sleep well and make a wish
Don't be scared, I won't bite
I keep you warm and hold you tight

Good night, here's your kiss
Sleep well and make a wish
Don't be scared, I won't bite
I keep you warm and hold you tight

Your dynamite antics drove me to your magic
Merrily down the stream, you got me goin? frantic
Enchanted by your kiss, the apple's gigantic
In your Atlantic abyss I'ma sink my Titanic

Granted your wish to be captured on candid camera
Oh shit, I got to pamper you
With this hand trick gambit, open handed
Edible panties, no need for the hamper

We can spread out on the floor like Pampers
Chantin? Karma Sutra, you got me speakin? Spanglish
Mamacita, fuck semantics
Goddamn it, you understand it?

I'm about to blow like somebody pushed the panic
You fever the gene that Yaqub sub-planted
Shape and mold ya body just like ceramics
Big valley rodeo style, above to stand with

Dream, dream, cream, cream
Legs open, I'm in between
You squelch and scream, I split your gene
My chi, my yi, my shit, my jig

My lee, my con, crown me Kong King
Bottles of Ginseng, Jamaican ting

Wood root, it's the ultra sheen
Your flower bein? blossomed, pollinate like Spring

Good night, here's your kiss
Sleep well and make a wish
Don't be scared, I won't bite
I keep you warm and hold you tight

Good night, here's your kiss
Sleep well and make a wish
Don't be scared, I won't bite
I keep you warm and hold you tight

Love, love, love is in the air, fireplaces, winter time
Bottles of wine, cuddled up with a friend of mine
She a dime and in her physical prime
So every time we grind, she get a chill up her spine

Sign is Virgo, she from Chicago
She like my slow flow and like my turbo
I'm like yo, we can burn the herbal
I got the purple and you in my circle

By them hips I can tell she fertile
So I'ma take my time and as slow as a turtle
And I like her verbals, that wine she gurgle
Got her actin? terrible

And that ass is durable
Had her bent over in the Bentley convertible
The girl was beautiful, my flow was surgical
And now I'm preferable

Good night, here's your kiss
Sleep well and make a wish
Don't be scared, I won't bite
I keep you warm and hold you tight

Good night, here's your kiss
Sleep well and make a wish
Don't be scared, I won't bite
I keep you warm and hold you tight

When tonight chime, I taste your kiss
I make a wish, for you
When tonight chime, I feel your kiss
I make your dreams come true

She was gorgeous, wit ass that make you cum fast like
Porsches
Face look like a portrait, body like a fortune

Mills in small bills and tall heels, flexin? sex appeal
Got my mind ponderin?, wonderin? how the sex would
feel

First to kill she'd be an assassin, main part of her
attraction
Was her sense of fashion, stopped her and asked her
name
Complimented her elegance, she blushed, respond
with intelligence
Her scent was heaven sent

Offered me a drink, beautiful with dead presidents
A few drinks later, we back at her residence
Surprised and 35, I was deep between her thighs
When she came she cried, looked me deep in my eyes
and said

Good night, here's your kiss
Sleep well and make a wish
Don't be scared, I won't bite
I keep you warm and hold you tight

Good night, here's your kiss
Sleep well and make a wish
Don't be scared, I won't bite
I keep you warm and hold you tight
