Hello, I understand it might not be the right place but I could use some help here. By accessing this link you can listen to the song mentioned above. (if you do so hold on a few seconds, reproduction begins automatically)

I suppose it would be fairly easy for a french speaker to write down the lyrics. I cannot do it myself, at least not perfectly and yes I have been randomly searching the net for quite some time now, never managed to find traces of it.

No real need for a translation, it would be welcome though.

Thanks in advance.
