Here we are again, two lovers lost in a maze  
So many roads we could go down  
So many ways we could go wrong

You think we should part  
Both go our own separate ways  
Oh, girl, why can't we work it out?  
Can't you hear what my heart says?

Don't let me be lonely  
Don't let me be lonely tonight  
That wouldn't be right  
Now that I need you more than ever

Here we are tonight  
Both starring in the same play  
But I'm the one who plays the fool  
I've only one line to say

Don't let me be lonely  
Don't let me be lonely tonight  
That wouldn't be right  
Now that I need you more than ever

Girl, what will I be if you walk away from me?  
How can I make you stay?

Don't let me be lonely  
Don't let me be lonely tonight  
That wouldn't be right  
Now that I need you more than ever
