"Down To The Water"

The waves come in
Crash on the shoreline
Salty water, don't you know
It's yours, yours and mine

So grab your girl
And don't go wastin' time
Let's go down to the water tonight

White capped clouds
Dance in the sunlight
Purple fishes watch
And show you some of their delight

The weather's fine
And everything's all right
So let's go down to the water tonight
Let's go down to the water tonight

Come on down, come on down
(Down, down, down, down)
Come on down, down to the water
(Down)

Come on down, come on down
(Down, down, down, down)
Come on down, down to the water
(Down)
Down to the water

Island music
Sways with a palm tree
Friends of mine lay back
And talk of times that weren't so free

So let's have fun
And that means you and me
And let's go down to the water tonight
Let's go down to the water tonight

Down, down, down to the water
Down, down, down to the water

Down, down, down to the water
(Come on down, come on down)

Down, down, down to the water
(Come on down, come on down)
Down, down, down to the water
(Come on down, come on down)

Down, down, down to the water
(Come on down, come on down)
Down, down, down to the water
(Come on down, come on down)
