Hey, Jesus hey it's me
Now I've gone international
And become very rational
As you decree

Hey, Jesus it's our day
Now I can bring them home to you
Though I may loose out on a few
Who care to stray

We'll make them see international
We'll make them be international
Like you and me

Hey, Jesus it's OK
Now we have common interests
And we can help along the rest
To be like we

We'll make them see internationl
We'll make them be international
Like you and me

We'll make them see internationl
We'll make them be international
Like you and me

Hey, Jesus you'll agree
They're going downhill very fast
And it don't look as though they'll last
Till judgement day

We'll make them see internationl
We'll make them be international
Like you and me

International, international, international, international
International, international, international, international
