Wherever I go it's coming back to me
Whoever I've known they sent it back to me
I know the night will be all right
As long as your love keeps coming

Right back to me, right back to me
For all to see that our love is true

I put on a show, it's very clear to me
And when I am low I feel you're near to me
I know the night will be all right
As long as your love keeps coming

Right back to me, right back to me
For all to see that our love is true
I recall some years ago, when I truly was alone
Now at last all that is past
Now I'm never on my own.

I know my light will be shining bright
As long as your love keeps coming

Right back to me, right back to me
for all to see that our love is true ...
