

America "The Farm"

Visit "[The Farm](#)" on MotoLyrics.com

We're feedin' the world but we can't feed ourselves
They tell us don't plant now but there's nothing on the
shelves
If someone is watchin' down from above
What in the world is he thinkin' of

Daisy I think we must sell the farm
And you know I don't wanna cause alarm
The times are a changin', the money is gone
Where do we go from here, where do we go from here

If someone is watchin' down from above
What in the world is he thinkin' of

Daisy I think we must sell the farm
And you know I don't wanna cause you harm
The times are a changin', the money is gone
Where do we go from here, where do we go from here
Where do we go from here
