

## America "We Got All Night"

Visit "[We Got All Night](#)" on [MotoLyrics.com](http://MotoLyrics.com)

You can take your time  
I'll be takin' mine  
We don't have to hurry

Let the world go by  
Tonight it's you and I  
Feelin' others slowly

And though a simple touch  
Can mean so much  
Says all you need to know

We got all night  
We got from sundown to sunrise  
So don't let go, just hold me, baby

We got all night  
Let's make it last forever  
Take it nice and slow  
We got all night

It's so good to know  
You don't have to go  
Stay until tomorrow

Lying side by side  
Feel the senses slide  
Let your feelings follow

'Cause tonight is ours  
And through the hours  
Love goes on and on

We got all night  
We got from sundown to sunrise  
So don't let go, just hold me, baby

We got all night  
Let's make it last forever  
Take it nice and slow  
We got all night

Feels like we waited a lifetime to be alone tonight  
So make it hard to forget you  
'Cause we don't know when we can do it again

We got all night  
We got from sundown to sunrise  
So don't let go, just hold me, baby

We got all night  
Let's make it last forever  
Take it nice and slow

All night  
All night

We got all night  
We got from sundown to sunrise  
So don't let go, just hold me, baby

We got all night  
Let's make it last forever  
Take it nice and slow

We got all night  
We got from sundown to sunrise  
So don't let go, just hold me, baby

We got all night  
Let's make it last forever  
Take it nice and slow

We got all night  
We got from sundown to sunrise  
So don't let go, just hold me, baby

We got all night  
Let's make it last forever  
Take it nice and slow
