I don't understand it 'cause you won't say yes  
But you don't say no  
Sayin' no we shouldn't you keep holdin' out  
But you don't let go  
I'm givin' up on trying  
To sell you things that you ain't buying

It's your move  
(Your move)  
I played all of mine  
Time, is running out  
Make your move  
(Your move)

Or we can't go on  
Till, you understand  
It's all in your hands  
It's your move

You're giving me the business with that old come on

I gave it all I got now it's your move  
I thought you were hot but you're not so it's your move  
Your move, your move

It's your move  
(Your move)  
I played all of mine  
Time is running out  
Make your move

Or we can't go on  
Till you understand  
It's all in your hands  
It's your move

It's your move  
(Your move, ah)  
I played all of mine  
Time is running out  
Make your move

Or we can't go on  
Till you understand  
It's all in your hands  
It's your move

It's your move  
(Your move)  
I played a
