Chorus

A step takes me forward, a breath gives me air.  
Though I am frightened I know that I dare.  
Get out of my way, I see no reason to pray.  
Cause I live a pretty good life.

I've wandered through deserts, I've struggled through  
pain,  
I've sailed all the oceans to try to escape.  
I've realized the hard way there's no turning back,  
My heart and my soul will be with me for life.

Chorus

I've seen nature's wonders and the beauty of love.  
I've slept below stars with just magic above.  
When night becomes morning I'm always aware,  
Each day of my life I'm so glad I am there.

Chorus

Chorus

I have a pretty good,  
I have a really good,  
I have a wonderful life.
