Intro:

Yo Saafir what's goin' on playboy?

Saafir: What's really goin' on?

Huh you tell me baby.

Saafir:Hey it's like this man.

I gotta let these motherfuckers know how to crawl man.

I know everybody tryin' to come up immediately.

Saafir:You know they don't got the motherfuckin' perseverance cause they ain't have it hold up though. I gotta go and do this man.

Verse 1:

You can hear the ambition mobbin' in my po position

The intention is to come up

Do your grindin' pay the boss before you floss

And don't lose your mind and find discipline'

And stackin' your scratch

So it don't come up missin' in

As you're askin' the Lord for guidance

While you ridin'

Stickin' and movin' slidin'

In and out the game

Unless you realize you're sprung before you legalize your funds

All you track hustlers that was made for the corner

Dodgin' the coroner's office

I'm tossin' this at you

Now on some sermon type shit

I'm burnin' and I gotta write this

The mic got me ballin'

Shot callin'

It's the murk one like that

Sit back but not in starship

So I don't tarnish or rust

When I'm bustin' on the next jerk

Who swears he's ballin' but can't network

You better off with sexwork

The way you fucked in the game

It's a shame
I'm aimin' at the bathroom stall on all of y'all
With the H.J.s deflecting these hate rays
Until the sun falls
You acquired a dream
Crawl before you ball

Hook: (x2)
What you thought?
You was just gonna ball on the spot?
Let's be real
You gotta stack dollar bills before you get a mil
Gotta handle business before you choose to chill or you
fall
Crawl before you ball

Verse 2:
All you pompous ass marks in Babylon yawnin'
Becomin' another nigga spawnin'
>From the trenches
The stench is unknown
I've been crawlin' like a two toed
Chameleon for so long
Writing these songs and ridin' these thongs
With bracelets on they ankle bone
That's anxious to moan
Like Neena Samone
Have a trick
Sickin' thinkin'
That we know it's on
You better crawl before you ball man
Before you fall man
Keep ya hoes off your payroll
Unless they crawl with you
And you know they all with you
And even then they won't fall with you
I'm like fuck 'em
I got to
It's a new sheriff in town his name is Reggie Mamoo
Ya hear?
More like Saafir
On a crawl
By watch how daddy ball
I'm all ears and all eyes
Recognize
I'm crawlin'

Bridge: (x2)
Baby baby let me kick my all to y'all
You gotta crawl before you ball
I've seen so many many soldiers fall

They didn't know you had to crawl before you ball

Verse 3:

You see gotta put in major work in at first
Before you burst
Crawl before you ball but never lose your thirst
When you ballin'
Or you gonna end up broke and butt naked with no
garments on
While I'm makin' more cheese than Parmesan
Learn game at a fast rate
Apply it to my walk then stalk
I won't fall off cause I'm a put in that work
And I'm a stick to that plan
Now I'm a stay down with my folleys
The team then turn and brace God gave green
Going, going till I'm gone
I'm ballin'
