[Hook (x2)]

Where you from? LA, naw we don't play
Yeah this is how we rep CA all day
Where you at? That side where the gangstas ride
You know we stay high still keepin' it live

[Verse 1]

Yeah
Let me take you on a trip to a place
Where the sun shines bright but the skies look grey
We bang true hang loose everyday
Put that W up high and rep it every way
The west coast feel the breeze when you pass me
Between the smog and the weed got me raspy
Never stress, never settle for less
When you see the palm trees welcome to the west

[Hook (x2)]

Where you from? LA, naw we don't play
Yeah this is how we rep CA all day
Where you at? That side where the gangstas ride
You know we stay high still keepin' it live

[Verse 2]

Listen
I'm so I'll cause my city's so addictive
Don't get at me the wrong way homes you get evicted
We that region that invented those lo los
The birth of the skater plus the home of those cholos
From the three one oh's to the five six two's
B's and c's and tagging crews
We all live it and love it, we place nothin' above it
The hottest women sittin' in my brown bucket
Every night the party it don't stop
Whether weekends or weekdays we up in that spot
We keep it hot from LA to the bay
All the way to Mexico the west knows how to play
I take a fifty minute flight down to Vegas
What happens there stays there and that's the way we
play this
I love my city and my city loves me

Catch me ridin' through ya hood dippin' sittin' on threes

[Hook (x2)]

Where you from? LA, naw we don't play
Yeah this is how we rep CA all day
Where you at? That side where the gangstas ride
You know we stay high still keepin' it live

[Scratched]

"From the west" "California"

[Verse 3]

You could find me on the block gettin' baked up
Chillin' with some dimes that don't wear any makeup
It's an everyday thing when we let loose
Cranberry with a lotta bit of grey goose
Whether in the backyard or the club
Filler up don't stop gotta get my buzz
The sun set and we about to get wild
You love it, you live it, the California lifestyle

[Hook (x2)]

Where you from? LA, naw we don't play
Yeah this is how we rep CA all day
Where you at? That side where the gangstas ride
You know we stay high still keepin' it live
