Out on the town
No one is hangin' around
We've got to get some place
We're all moving with haste
I get in a round no need to sit down
As the band starts to play
The crowd seems to say

We're out for the night
We're doing alright
We're out with our friends and there's no end in sight
The smile on your face
The floor shakes with the bass
Glass in the air
Here's To Friday Night

My mate gets in the shots
The other plays the slots
He's gonna loose the lot
Because that machine just dropped
As more people turn up
The place gets louder
As the band keeps playing
The crowd keeps saying

We're out for the night
We're doing alright
We're out with our friends and there's no end in sight
The smile on your face
The floor shakes with the bass
Glass in the air
Here's To Friday Night

Friday Night

There's a girl playing pool
Surrounded by onlookers who drool
She's taking everybody's money
But that's cool
She pots the black takes the money "thanks!"
She dances over to the stage

At the top of her lungs she screams

We're out for the night

We're doing alright

We're out with our friends and there's no end in sight

The smile on your face

The floor shakes with the bass

Glass in the air

Here's To Friday Night
