Annihilator, breaker of this world
Bring destruction, suffering and pain
Lord of fire, satans number one
Death machine and plague and poison bringer

Turn out the light, I've come for vengeance
In the darkest night, you'll feel my power

Dream destroyer, gazing in the night
Don't resist my nightmare, taste the fire
I've come for you, I'm here for vengeance
In the dash of light, you'll feel my power

Hide from my lies, I can see into your eyes
God appeared, you don't know cause no ones there
Hide from my lies I can see into your eyes
God appeared, you don't know cause no ones there

Running round in circles, there's no escape from me
I'm the last one of my kind, (k)now there is no stopping
