### "Total Destruction"

Visit "[Total Destruction](#)" on MotoLyrics.com

Decayed, morbid wisdom,  
Holy church, the fortress of slave  
Devastation, the creation of lust  
Human race, guilty breed  
Dying holy gods, praise the extinction  
Avengers riding on the storm, blessed by the dark lord  
Mission from hell, command from hell, total  
destruction  
Destroy 'em all, the domain of gods, total destruction  
Pleasure to kill, pleasure to ruin, extermination

Mission of hell, command of hell,  
The towering storm singing an anthem of hell  
Revelation, the idle prophecy  
Holy canon, trap of gods  
Mortals, lower creatures  
Messiah, running away  
Pray for the revolution, the creatures are dead and  
gone  
The ritual of resurrection, the creation comes to the  
end  
Execute the final command  
Welcome to the mortal end
