Almost night  
a prince of horizon  
hunting thousand less red (w?tpliwo?ci)  
as the army are closer than east  
a panzer is watching this play  
on the low a man with his gun  
one who sent to the while  
tracks the down  
you can hear  
once his is on to your trail

Into the night  
a flash in the darkness  
White Death is hearing your way  
the fear of his force a hero at home  
panzers will fall by his gun

You are in the sniper's site  
The first kill tonight  
Time to die!  
You are in the bullet's way  
The White Death's play  
Say goodbye!

After the done  
when morning is broken  
snow is waiting to rend  
one of slaughters  
was hakeem last night  
artillery by sniper is bone (w?tpliwo?ci)

snow in mouth  
hiding his breath  
he is ready at hand  
hight to hight  
target decided  
the moment to final has come  
hundreds of kills  
the man who is wait for  
and burning to cease you offence  
stand over stand and come you ahead  
when people set tricker your death

You are in the sniper's site  
The first kill tonight  
Time to die!  
You are in the bullet's way  
The White Death's play  
Say goodbye!

You are in the sniper's site
