You said I'm not the only one to let this go,  
In my head, I think there's something more that you  
don't even know.

You said, that I should live it up  
Like there's no tomorrow.  
So I'm gonna have to take your word on that.  
Place feels like I'm staring right down  
The barrel of a gun,  
Cause everything, and everyone,  
Is blowing up right in front of me  
Like nothing else

You said I'm not the only one to let this go.  
So do it up right,  
Every second not a minute to waste,  
And there's a silence around  
Cause every star had to fall to the ground.

Clocks turn at the pace your heart is beating at,  
For a while I thought you fell off the face of the earth  
Cause the time wasn't passing fast.  
Cause I'm a failure at counting,  
I don't know how far that I'm away I am from you.  
I had to get out of that town,  
And hit the city at night cause I'm breaking my way  
through.

I don't care who you are, who you think you are,  
The story of the year's got me ten feet from the stars.  
Listen close to the words I say,  
You think your right, but there's gotta be another way.

I don't care who you are, who you think you are,  
The story of the year's got me ten feet from the stars.  
Listen close to the words I say,  
You think your right but, there's not another minute to  
waste.  
To waste, to waste, to waste
