Well she was, beautiful and amazing,
And she had all the special things that made my heart
go chasing.

One day I had to make her mine,
When I'm with her got a feeling like I'm on cloud nine.

She knocks me off my feet,
Everybody knows it,
And if we believe its love,
Then we should show it,
Perfect together forever,
Its all it should take, come on.

She lifts me up,
When I am down,
When my world spins round.
When I am stuck,
Stuck in bad luck,
She's always there to lend a hand and pick me up.
Its me and you,
We don't care what the world thinks baby.
She lifts me up,
Up to the sky,
And no I wont ever say,
Good bye.

She's like way,
To perfect for me,
I'm like hey,
You should totally date me,
Shes like babe,
But were already dating,
I know but I'm just playing,
But your way to good for me.

To my love,
Cause I know that we were meant to be forever.
It's all I know,
so lets go,
Scream at the top of your lungs.

Shes always lifting me up,
When I'm feeling shut down,
When I don't know where to go,
Or when my sky hits ground.
When I should have been there,
When I'm standing right here,
You've got a, you've got a hold on me,
And you show me that you really care.

She lifts me up,
When I am down,
When my world spins round,
And round and round.
When I am stuck,
Stuck in bad luck,
She's always there to lend a hand and pick me up.
Its me and you,
We don't care what the world thinks baby.
She lifts me up,
Up to the sky,
And no I wont ever say
Good bye

No I wont say good bye

Put 'Em Up

Meet me on top of the world,
It's you who turned yourself into the
Most lonely girl, were gonna shake it up tonight...

So Put your hands up,
If your feeling like you should have had another
chance,
And if your wishing that you could have gone back and
changed your past.
Well lets see those hands.
And if you take into consideration all the things,
That brought us meaning to this love, this meaning
everything.
Do I want that back?

You look so good,
And it felt so right.

Meet me on top of the world.
It's you who turned yourself
Into the Most lonely girl.
Were gonna shake it up tonight,
With your eyes open wide and your mouth on mine.
Lets not make this boring, when the sun comes up,

We'll regret in the morning.

So put em' up, put em' up, put em' up on high,
So put em' up, so you can barley touch the sky.

Ships sunk, and you've already clocked out.
You're trying to find away to get back in doubt.
You found a way to stay late, now your kind of half way,
Now your going insane, can you feel me?
You dipped feet, that's all your really about,
Your waist deep, and all your wanting is out.
You found a way to stay late, now your kind of half way,
Now your going insane, can you feel me?

Make and break and shake this off your shoulders,
Its all we've got, its all that we've got.
Move your lips, you've gotta shake your hips and,
Like this you you've gotta clap your hands and,
Gotta let it go, so we can put this behind us.
