His bleeding heart has cried  
He lost a fight last night for love - oh no  
She left him - said goodbye  
Where are the days he smiled for love - who knows  
Oh the rain has reached his paradise  
He moved to tears again  
Her love of yesterday  
Will fade away in the wind

King of roses  
Lonely prince of misery  
All your dreams you have are drowning in the sea  
King of roses  
Love is not a tragedy  
And I promise you - you'll find your majesty  
King of roses

A precious memory  
He's drifting hopelessly in gloom - oh no  
And he is gone astray  
Belongs to yesterday for love - I know  
Life has built a wall around his heart  
His love turned into pain  
He will remind and feel  
The time will steal what we love
