Hear it like a pounce upon a peak, oh  
Look at what the light did now  
Bear it like a bounce upon the beak, oh  
Look at what the light did now  
Land and water and bird or beast, oh  
Look at what the light did now  
Shiny little band or golden fleece, oh  
Look at what the light did now

(Chorus): Look at what the light did now (x3)

In my will I went 'till it's wasted  
Look at what the light did now  
Taste the taste I taste 'till it's tasted  
Look at what the light did now

Bought it like a boast that burly beaming  
Look at what the light did now  
Got it like a ghost that girly gleaming  
Look at what the light did now

(Chorus)

Like a dead tree that's dry and leaving  
Look at what the light did now  
Play it on me with grief and grieving  
Look at what the light did now  
I would finally fall to pieces  
Look at what the light did now  
We'll meet soon as newpew's nieces  
Look at what the light did now

(Chorus)
