When the road gets the best of me  
My mind recalls a picture  
Of a place that I call home  
You are there in my memory  
A scene that's so familiar  
That it chills me to the bone  
But I'll stay out here where I belong  
For the call is telling me to carry on  
And while I'm away I can dream  
And suddenly you're there  
CHORUS  
Love finds you, love brings you to me  
And once again we walk together  
Love finds you, love brings you to me  
And binds the hands of time forever  
We may be worlds apart  
But you are never too far  
From where I need you to be  
Love finds you, love brings you to me  
It was not what we planned to be  
We all would change the ending  
If the choice was ours to make  
For you left us so suddenly  
But it's only the beginning  
For eternity awaits  
And I'll never forget you my friend  
For the brotherhood between us has no end  
But while you're away I can dream  
And suddenly you're there  
REPEAT CHORUS  
Through the fire of the journey  
Through the good and through the bad  
You are not alone  
And through each and every turn of life  
Through the seasons of your path  
I want you to know where ever you go  
REPEAT CHORUS
