How long have you been  
Waiting on a little sun to shine  
To take away the night  
Hold on for you are never alone  
Through the darkest skies  
There is a guiding light  
For our God is a refuge  
Where the weary can run and hide  
In times of trouble  
Hell be the calm in the midst of the storm  
Till it passes by  
Oh, you need to know

#### CHORUS

There's a shelter in the rain  
There's a hope for your tomorrow  
There's a cover through the pain  
When you're underneath the weather  
Jesus is the shelter in the rain  
Sometimes when hope is hard to find  
Weve got to walk by faith  
Until we see the way  
Hold tight for we are promised in time  
Those who patiently wait  
Will never wait in vain  
For we know God is faithful  
Hes a fortress to run into  
In times of trouble  
Hell cover us with the wings of his love  
Till we make it through  
Oh, we got to know

#### REPEAT CHORUS

So tell me why  
Why could you ever run away  
From the cover out into the storm  
Just know in time  
The rains gonna bring a brighter day  
And the clouds will be gone  
But while you wait on the Lord
