So confused, all of them stood surprised
For there was no hatred in His eyes
Jesus knew none of them realized
They were the reason He must die
Though the words they said
Condemned Him to death at Calvary
He knew deep inside that

CHORUS

If we could see
through His eyes
Then we could dare to love
the way God loves
If we could see
through His eyes
Then we would understand
the way God understands
For His eyes see through the
surface right down to our needs
Far beyond where we are
to where we can be
If we could only see
through His eyes
In Gods sight there is no black or white
Cause it isnt color that He sees
(For) side by side, we are so much alike
For we were created equally
And though years and time
Have built walls and lines
Between us, Ill always believe that

BRIDGE

I know that in Gods providence
there is a higher plan
For He alone creates
a perfect heart
And He desires to see the good
in each and every man
That He has purposed
from the start

REPEAT CHORUS
