I ran into some of our mutual friends last night
To hear them tell it I treated you every which way but
right
So I just called to tell you I think we should agree
On the way that you're portrayin'
The history of you and me

Make it sad but don't make 'em cry
Make it a bad thing we ever said goodbye
Make it you're movin' on with every day that goes by
Make it the truth but don't make it lame
Make it our plans for the future weren't the same
Make it all done between you and I
But don't make it lies

Before I go I should let you know that I set 'em straight
I couldn't have your lies bein' spread around all over
the place
I'm gonna let you know one thing before I say goodbye
This is what I say when someone asks about you and I

I make it sad but I don't make 'em cry
I make it a bad thing we ever said goodbye
I make it I'm movin' on with every day that goes by
I make it the truth but I don't make it lame
I make it our plans for the future weren't the same
I make it all done between you and I
But I don't make it lies

So, make it sad but don't make 'em cry
Make it a bad thing we ever said goodbye
Make it you're movin' on with every day that goes by
And make it the truth but don't make it lame
Make it our plans for the future weren't the same
Make it all done between you and I
But don't make it lies

Just make it all done between you and I
But don't make it lies
Don't make it lies
Don't make it lies
