

## Sacramentum "Pagan Fire"

Lost, alone in the crypts of mourning  
Deep under a mountain of sorrows

Cold flames of melancholy  
Tearing inside me  
Taste the bitterness  
And feel the strength in pain

So deep, so dark, so real  
Filling all my veins  
Wandering souls meant as one  
Roaming around (illusion is) gone

Searching in my mind  
But calm is not to find

Come with me,  
Follow me in my search for thee  
Fall with me through eons of despair,  
To the sound of a million divine choirs

Frustration leads my soul  
To the desert of confusion  
Captured in a world formed by myself

Cold flames of melancholy  
Tearing inside me  
Taste the bitterness  
And feel the strength in pain
