"Sympathy On My Soul"

Visit "[Sympathy On My Soul](#)" on MotoLyrics.com

As simple as it gets
I still don't understand it
How losing should be painful
I wish that you were here

But careful what you wish for
He said
Please have some
Symphaty on my soul
Some symphaty on my soul

And do you really know
How much I miss you

As simple as it gets
I still don't understand it
How losing should be painful
I wish that you were here

But careful what you wish for
He said
Please have some
Symphaty on my soul
Some symphaty on my soul

And do you really know
How much I miss you

And we do it all again
The damage was done
Long before we had begun
