Maniacs of speed and power - gather anxiously  
Come together - sons of metal - warriors of steel  
Celebrate our hymns of iron - shout out from the heart  
Raise the horns - show your devotion - led the madness  
start  
Now!

Storm up to the front row - join your brothers in the pit  
Get high on adrenaline - the fires of hell are lit  
Through and through the metal flows - the mighty gods  
we hail  
Sacrifice you blood to them - by metal impaled

Rise up legions - from the grave  
Rise up legions - strong and brave

If metal's dead - the dead walk the earth  
Straight out of hell into rebirth  
We're reborn into the light - impaled by metal  
Passion born out of despair  
We don't fucking care what you believe - it's right  
Impaled by metal we're tonight

Metal rules tonight

Listen children of the spirit to the truth we speak  
Loudness - Energy - Aggression - It's all that we need

We're reborn in steel - united and strong  
We're reborn in steel - let the wargods guide us ever,  
guide us ever on

Join us in the fight!
