I feel alone in a life that has filled me with hate and
strife
As a child I fell into a dark abyss I failed to get through
Now I must pay for all of you fools that ignored my call
By these walls walls we are kept sedated
Incarcerated
Deathrow holds me convicted of sins that have not
been committed
Suicide makes this his grave as we remain forever
enslaved
A queer prepares to die, don't tolerate his kind inside
By these walls walls we are kept sedated
Incarcerated
Pain, Alone, Inside this hole
A lifetime left to repent crime nothing left for me but
time
Can we escape this torture, insane methods of law and
order
From your world we fell, to spend the rest of our lives in
hell
By these walls walls we are kept sedated
Incarcerated
