What's a girl to do, with a boy like you? What's a girl to do?

you love me with your eyes, you melt me with your smile
and i can't resist you
you always look so cute, your clothes, your attitude
and i just wanna kiss you
but don't get so tense, when i hang with my friends
'cause it's not makin' sense and it's not like you

What's a girl to do, tell me what to do, with a boy like you?

What's a girl to do, with a boy like you?

who wants to spend from now until the end of time with me?

i don't wanna fight, i wanna make it right, and i want u to be happy

so don't get up tight, if I don't call tonight
cause I've got a right, boy, to live my life

What's a girl to do, what's a girl to do, with a boy like you?

What's a girl to do, with a boy like you?

What's a girl to do?

What's a girl to do?

Tell me what to do.

What's a girl to do?

So don't get uptight, If I don't call tonight
cause i've got a right boy to live my life.

What's a girl to do, with a boy like you?(x4)
