I'm enlightened but enraged in this world I feel so  
Caged,  
Sick and tired of being injected with the shit the  
System made.  
They have no idea how much this shit hurts,  
I got insist, got to persist in dealing with these  
Jerks.  
I'm tossing and turning while I sleep but I still can't  
Read the signs.  
Not knowing that they already control your  
subconscious  
Mind.  
I got to be damn to think that they can take control of  
Me,  
I can spot them from a mile away or as far as I can  
See.  
I'm disgusted, your brain is rusted,  
You think that I don't know your plan but your already  
Busted.  
In and out, out and in is the way they're going to  
Screw you,  
They lay down the bass, talking to your face, just like  
They never knew you.  
You try to find the truth but the hedges are to high,  
Not knowing that your master wears the big brother  
Disguise.

You live your life in a fucking daze,  
You're just a rat in a fucking maze,  
Always trying, keeping up the pace,

You're just another victim of the human race.

Do you really know what the meaning of life means?  
System says it's all about the green.  
Identity judged by the car your drive,  
Is that way you were put here, is that why you strive?  
Happiness has become no longer the true goal,  
But your job, your money have taken control.  
When you can't see your family what good is cash,  
When the pursuit of happiness and life comes last?

Race (fucking pace you lost this race)!

So many paths that you can have, which will you  
choose,  
Maybe the left one, maybe the right one, will you win  
Or lose?  
Are you scared? Are you frightened? There's no need  
to  
Be afraid,  
With the choice that you choose, your own path will be  
Made.  
The paper that you make, your back that you break, this  
You do not enjoy.  
The pursuit of love and happiness you must employ.  
Your Mercedes Benz, your diamond ring and your  
mobile  
Phone,  
Life is what you make of it and not what you own.
