[Music: Berholtz, Dimsdale]

[Lyrics: Svensson]

[Cello: Hellgren]

A painfull planet in disguise  
on wich I cannot breathe  
Blinded by lies of light  
alone in despair

Punished by my birth  
slaughtered bu my belief  
The future is near  
and with it a connected fear

Leave your sordid life  
and join the dead I know

I am the god of none-divine  
Drink my blood, thick of sin  
Bound to my opressed soul

Follow my hand  
enter mu pandemonium  
to an otherwordly pain  
Beyond good and evil  
we will meet again  
Beyond the gates of pain
