"I Miss You"

The view from here would take your breath away
It's like this every night and every day
Anything that I need will come to me
Everything that I want I get for free

I'd give it all away to be with you another day
I can't go on like this without you I have no bliss

No longer is there any fear or pain
I'd rather suffer only to see your face again
I miss you
It's quiet

Oh oh oh oh

I'd give it all away to be with you another day
I can't go on like this without you I have no bliss

I miss you
It's quiet

I miss you
It's quiet
