Appaloosa!

Girl on a pony
Barefoot bareback
I hop on behind her
Never look back

Long live the farm
Where the good food grows
Where the grass is green
The fruit is ripe and the south wind blows
I'm happy here but I have to go
Cause my allergies
Plugging up my head coming out my nose

Well you might have heard some gossip
Oh you might have heard some yarns
But mark my words
They've got it all backwards
But I won't say what happens in the barn.

Long live the farm
Where the good food grows
Where the grass is green
And the girls can cook and the south wind blows
I'm happy here but I have to go
Cause my allergies
Plugging up my head coming out my nose

So we went riding
So unprepared
And I'd be lying
If I said I wasn't scared

Long live the farm
Where the good food grows
Where the grass is green
The fruit is ripe and the south wind blows
I'm happy here but I have to go
Cause my allergies
Plugging up my head coming out my nose

Long live the farm
Long live the farm
