

## Sadist "Escogido"

Visit "[Escogido](#)" on [MotoLyrics.com](https://MotoLyrics.com)

searching paths to knowledge  
nothing but fear remains  
walking thru' nonsense  
where noone dares  
clutching reality, naked divinity  
escogido  
to reach nowhere, a shadow  
a step away from my left side  
she follows me while she 's waiting  
where have you gone  
reality and all my tidy thoughts?  
share of emotions  
something 's trying to get free  
something 's trying to get free  
kicking out from my heart!  
escogido and afraid  
how can my first enemy  
sweep away everything ... like this?  
repeat 1st verse  
a way wiped out like this  
defiled warrior in an unknown land  
made out of dark presence & feelings  
a faultless path, and that fuckin fear  
in front and all around me
