Now just let it go
And let it all fall
And let it all fall
Your whole world is clearing up
It's clearing up
It's clearing up
Please don't forget to lock away
All those bad memories
Memories

Just hold on you can't fall down
When I'm here to hold you
So just let go
Just let go

Don't worry so much
Just let it all go
Just let it all go
You got a lot into the horizon
It's lifting up
It's lifting up
Please don't forget to lock away
All those bad memories
Memories

Just hold on you can't fall down
When I'm here to hold you
So just let go
Just let go

Just hold on you can't fall down
When I'm here to hold you
So just let go
Just let go
