Now its time to break away,  
break away, break away,  
you know it never falls away,  
not today, so you,

fall down trying to get up,  
to get up, and you break down  
and its over now. its over now,

Now, its all coming back,  
coming back, coming back,  
and now you know where you belong,  
you belong, so you

fall down trying to get up,  
to get up, and you break down  
and its over now. its over now,

fall down trying to get up,  
to get up, and you break down  
and its over now. its over now,
