Verse 1

Just love me at my Core
Surround me with your Love
I need you here with me

I wanna bring you joy
I wanna bring you all
And I need you here with me

I could never really be
What you wanted me to be
I wanna just be me
Do you understand

Chorus

I lift my hands in Praise
I raise my hands and Follow you
I lift my hands in Praise
I raise my hands and Follow You

Aah Ah! Aah Ah!
I'll raise my hands and Follow You

2nd Verse

You're always there for me
Through all the hurt and pain
You always carried me

You always gave me Love
You always showed me Love
And you never turned away

I could never really see
What you needed me to see
It was right before my eyes
Now I understand

Chorus

I lift my hands in Praise
I raise my hands and Follow you
I lift my hands in Praise

I raise my hands and Follow You

Aah, Ah! Aah, Ah!

I'll raise my hands and Follow You

Aah, Ah! Aah, Ah!

I'll raise my hands and Follow You

Bridge

The way you love me awes me

(Raise my hands and Follow You)

You shine your light through me

And I give my all to you

(Raise my hands and Follow You)

And Praise...

(I raise my hands and Follow You)

Chorus

I lift my hands in Praise

I raise my hands and Follow you

I lift my hands in Praise

I raise my hands and Follow You

Aah Ah! Ooh!

Raise my hands and Follow You... Ooh!
