Like the grass that
Springs up in new morning,
Is how your love is making me feel,
You give me hope that moves me,
It feels me, It thrills me
Gives me everything and more

When I need it all
It's you that I run to
I'll let you be my guide
When the world is bringing me
To my knees, Yeah
Don't ever let me down

CHORUS
You... x6
You make me feel Love
You... x6
I cannot let you go (2x...)

I'm excited by you
I feel safe when you're near me
I can feel you in my heart

You make it Easy
You make it sweet, so good to me
It's always been you and only you

When I need some love
It's you that I turn to
I'll let you be my guide
When the world is bringing me
To my knees, Yeah
Don't ever let me down

CHORUS (2x)
You... x6
You make me feel Love
You... x6
I cannot let you go

BRIDGE

You energize me
You're just like me
There's nothing I wouldn't do for you
You elevate, my very soul
And you keep taking me,
Higher and Higher

CHORUS

You... x6
You make me feel Love
You... x6
I cannot let you go

Instrumental Interlude...

(I cannot let you go...)

CHORUS (2x)

You... x6
You make me feel Love
You... x6
I cannot let you go

Like the grass that springs up
In the new morning
(You make me feel Love)
You make it Easy
You make it sweet, so good to me
(I cannot let you go)
When I need some love
It's you that I run to
(You make me feel Love)
When I need some Love
It's you that I turn to

I cannot let you go... Oh Oh!

Like the grass that springs up
In new morning
Is how your love is making me feel
