Chorus

Tell me why do we want more
Why're we never satisfied
We're in a struggle with
The will of the universe

Tell me why we fail to see
The beauty of our fellow man
The beauty within us
Oh, what are we doing

We begin to find ways
To change that beauty
Until the need for more
Leads to utter destruction
We destroy that beauty until
It's got nothing left
I can't believe that you lead me here

Tell me why do we want more
Why're we never satisfied
We're in a struggle with
The will of the universe

Tell me why we fail to see
The beauty of our fellow man
The beauty within us
Oh, what are we doing

Verse 1

The usual word is
I could never leave you
But I know that you don't love me anymore
He will go away and give your love away
I can't believe that you lead me here

Chorus

Tell me why do we want more
Why're we never satisfied
We're in a struggle with
The will of the universe

Tell me why we fail to see
The beauty of our fellow man
The beauty within us
Oh, what are we doing

Verse 2

She was daddy girl until
He left and went away
Now he's looking for love
In all the wrong places
But she'll go away and
She will make it through
I can't believe that you leave me here

Chorus

Tell me why do we want more
Why're we never satisfied
We're in a struggle with
The will of the universe

Tell me why we fail to see
The beauty of our fellow man
The beauty within us
Oh, what are we doing

We begin to find ways
To change that beauty
Until the need for more
Leads to utter destruction
We destroy that beauty until
It's got nothing left
I can't believe that you leave me here

I can't believe that you lead me here
