Oh yes, she was again, misery and mystery.  
Yes, it was her again and this time,  
I was sure about it. Yes she has struck again.  
Seeing that spectacle of desolation in front of me,  
the victim, his heart pulled out devoured.  
Yes, it was her again and this time. I was sure about it.

My darling, my love, before no, no, no, no...

The cloakroom was not dark anymore.  
Candles, were burning there, thousands of candles.  
I had to stop her, I had to stop her.  
Suddenly the room began to spin and became white.  
My head was still spinning, my vision was still shocked.  
She was waiting for me! Waiting to use, all her power...  
No pain, but a terrible horror. Worse, much worse than  
pain.  
A chasm of regret and extreme affliction  
gobbles itself up in the depths of... me.  
She gently climbed up along my spine  
to suck up my life in a last kiss.  
Oh, yes, in a last kiss.
