Don't know what you was thinking
Putting me think he thought he gonna do me wrong,
hey

I'm a one in a million, bet in a trillion
Should have been tryina hold on, yeah
He he hey, I ain't got the time to play
The silly games you won't be dead and gone
Hey, you gonna look back on this day
Thinking what the hell was I on,
Hey, hey, hey

The decision is made, no need to wait
Go carry on, hey
That already made, go ahead and lay
Go carry on
In my mind you're erased, total replaced
And go carry on, hey
So tired of your shit, go on you're dismissed
Go carry on, hey
I'm moving on, the love is gone
Cause the life goes on,
I won't be needing you oh
This feeling is strong, the thrill is gone
Cause the life goes on,
I won't be needing you oh

Used to be obligated, constantly making
Show you a happy girl I was so gullible hey
I was out here so naked, boys would be making
Passes and I was telling them I was comfortable, hey,
hey

You took time from my life away
I can't get it back cause that time is gone, hey
I'm getting ready to ride away
No turning back it's what I'm on
The decision is made, no need to wait
Go carry on, hey
That already made, go ahead and lay
Go carry on
In my mind you're erased, total replaced
And go carry on, hey
So tired of your shit, go on you're dismissed

Go carry on, hey
I'm moving on, the love is gone
Cause the life goes on,
I won't be needing you oh
This feeling is strong, the thrill is gone
Cause the life goes on,
I won't be needing you oh
Didn't mean to bring the pain hardcore
But I'm saying
Cause you take me back again
Can we take it back to back when
Before we put it in driving and back it in
When we was beginning it was innocent and interesting
Printed in the... finishing each other's sentences
Now you wanna go, one foot out the door
I'm numb but it go, shouldn't take out my soul
Stole my whole heart like the look out was gone
No more holidays, cook out...
Mama keep on asking what happened to that one pretty
girl
Knew you was the one that she never ask about any girl
Guess I messed up, you was the best one
Now I got a little wisdom for the next one
This time our law should have played to win
Man I hope I'll never make the same mistake again

The decision is made, no need to wait
Go carry on, hey
That already made, go ahead and lay
Go carry on
In my mind you're erased, total replaced
And go carry on, hey
So tired of your shit, go on you're dismissed
Go carry on, hey
I'm moving on, the love is gone
Cause the life goes on,
I won't be needing you oh
This feeling is strong, the thrill is gone
Cause the life goes on,
I won't be needing you oh
I'm moving on, the love is gone
Cause the life goes on,
I won't be needing you oh
