Carry me, carry me

Carry my thoughts, share my dreams
Carry me cloud over the sea

This fear is burning up, but they can't stop us now
The voyage is true baby, but we're gonna make it
somehow

Shores constantly changing
Carry me, carry me, carry me, set me free

Don't want to lose, hold my knee
Bless that I found you waiting for me

This fear is burning up, but they can't stop us now

The voyage is true, I know we'll make it somehow

Shores constantly changing
Waving a wand and stalling and driving, turning

Carry me, carry me, carry me, set me free

Shores constantly changing
Changing oh no
Stalling and driving
Stalling and turning, turning
Ohh my soul is climbing, falling, Lord
