"New Idols"

We don't dance to love songs
We don't dance to love songs
We don't dance to love songs
We don't dance to love songs with synthesized strings
We don't dance to love songs
We don't like the sound that the radio brings
We just don't dance to love songs

I get tired of watching others' lives
Non-existent businessmen that cheat on their wives
Johnny gets drunk and Johnny gets loud

And Jenny wonders why she ever had him around

We don't dance to love songs
We don't dance to love songs
We don't dance to love songs
We're born in an era where we don't fit in
We don't dance to love songs
We don't dance to love songs that lovers don't sing
We just don't dance to love songs

Can't you see new idols?
We could be new idols
