Oh I got money to burn
I want to burn it on you
Come on yeah yeah
I've got one short life
I want to spend it on you
You light my fire
I want to burn all night
I want to burn on through
Aww yeah yeah I got one short life
I want to spend it on you
Baby, You're my sweet saviour
You're my one adventure
You're my one and only gift
I've got From above
From above
Oh we got one last dance
I want to dance with you
Come on now now
We got one last supper gonna eat with you
Aww yeah yeah
We got one last I want to get high too

Come on now now I got one short life

I want to spend it with you

Oh I got money to burn

I want to burn it on you

You light my fire

I want to burn all night

I want to burn on through

Come on now train

Your gonna take me away from my rotten shame

Learn how to love

I gotta learn how to live

I've gotta learn how to give come on
