i, i have swum those raging seas
washed up by an ocean who had tired of me
how i survived i will never know
these legs got a home and a whole lot of hope

1st CHORUS

i'm out on a beach
sat on a rock
thinking of you
and the love i got
saw the devil's servant
sent her home
said bring me a message
i don't wanna starve
i'm on fire
i'm full of love and new desire
i'm on fire
i'm full of love and new desire
full of love and new desire
i lit my fire blew my conch
nobody comes
i built my boat of bamboo

but it sunk

i look to the sky for vapor trails

nobody comes

i wrote your name on a tree as long as the days

this is taking you away from me

2nd CHORUS

i'm out on a beach

eating my heart

thinking of you and the love i got

saw the devil's servant

sent her home

said bring me a message

i don't wanna starve

i'm on fire

i'm full of love and new desire

i'm on fire(i need somebody like you)

i ain't afraid to die

i ain't afraid to die

i ain't afraid to die

ISTRUMENTAL SECTION
