Feel the night  
We're dancing through the light  
The music feels so right  
Wowaow  
Dancing through the night  
Wowaowaaa

Yeah yeah jibbidi yeah yeah  
Yeah yeah jibbidi yeah yeah  
Yeah yeah jibbidi yeah yeah  
Jibbidibi yeah yeah jibbidi wowaow

The night is coming soon  
So take a chance  
Like a trip up to the moon  
You wanna dance  
You have to be certain  
That everything is right  
You have to be the one  
So feel the night

I wanna get with you  
It's the way that I'm coming down  
You have to realize  
That the joy in life it spins around  
Got to fly away  
It's what I'm thinking every day  
Thinking about you day and night  
You know you'll have to stay

Bom bom yippiaye dogga diggi dum  
Gotta get up gotta get on down  
Gotta get up gotta get on down  
Bom bom yippiaye dogga diggi dum  
Gotta get up gotta get on down  
Gotta get up gotta get on down  
Music swinging all around
