Night and day you have to say
You don't listen anyway
Love will come and love will go
Walk away and close the door
Forever
Forever

Gotta get away

Go away, go away
'Cause I'm leaving now
I don't want you to stay
Go away, go away my friend
I don't want your love
I don't want you to stay

Gotta get away

Say you want me, say you want me, say you want me
And I want you
Say you want me, say you want me, say you want me
And I want you
Gotta get down if you can't go down
What you're gonna do is getting round
Can't hide you if you don't understand
Wanna get away

You gotta control what you cannot control
What is deep inside I need your soul
Frees your mind from you problem.....
I beg you now but you cannot say please
.....
.....and state you.....
Show yourself cannot run away
Gotta get away
