I can still remember when I saw you in my dreams  
You were like no other  
A true love fantasy

Bridge  
Now I know you so stay with me  
It's make our dreams come true  
So we can stay together  
Come on baby stay tonight

Chorus  
Love at first sight when I saw you standing there  
It was love at first sight, you and me it was meant to be

Not that we're together  
Living you is what I'll do  
Make this last forever it was meant to be

Bridge  
Now I know you so stay with me  
It's make our dreams come true  
So we can stay together  
Come on baby stay tonight

Chorus  
Love at first sight when I saw you standing there  
It was love at first sight, you and me it was meant to be

All my life I've been dreaming of someone just like you  
Inside my mind I've always thought of you day and  
night  
I can't believe it's true you and I make this moment  
Last all night through  
It's a real love, real love

Bridge  
Now I know you so stay with me  
It's make our dreams come true  
So we can stay together  
Come on baby stay tonight

Chorus

Love at first sight when I saw you standing there  
It was love at first sight, you and me it was meant to be

Love at first sight when I saw you standing there  
It was love at first sight, you and me it was meant to be
